Prairie school evacuated due to microwave fire

By Jodi Heckel

Thursday, April 17, 2008 11:39 AM CDT

🖂 E-mail Story 🖺 Printer-friendly

URBANA – Prairie Elementary School was evacuated for a short time this morning after a microwave caught fire in the teachers' lounge there.

Microwave Features

Detects spark and/or fire

- 1. Alerts user of danger
- 2. Shuts down microwave
- 3. Extinguishes flame with CO₂
- 4. Notifies user when unsafe to open door
- 5. Indicates when CO₂ cartridge needs to be replaced

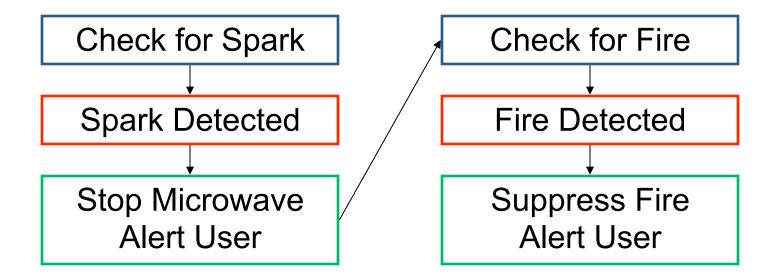

Product Demonstration

Product Demonstration

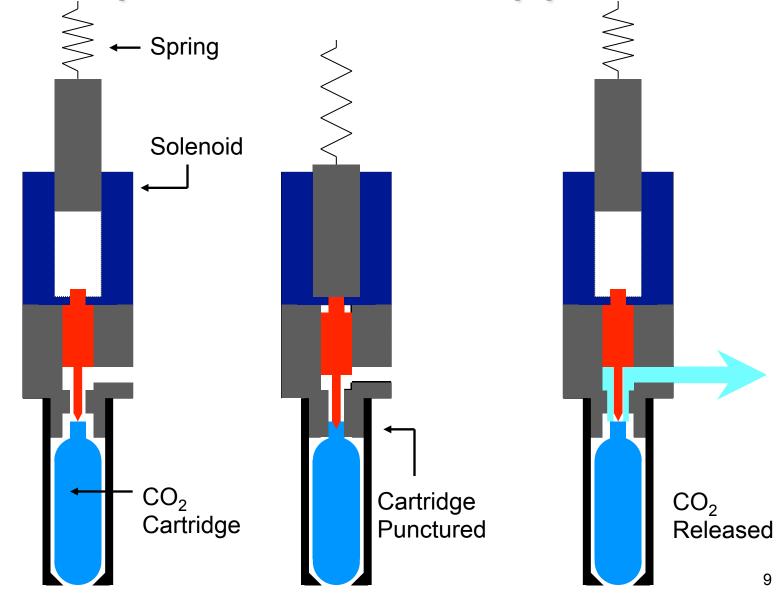

Component- Circuitry

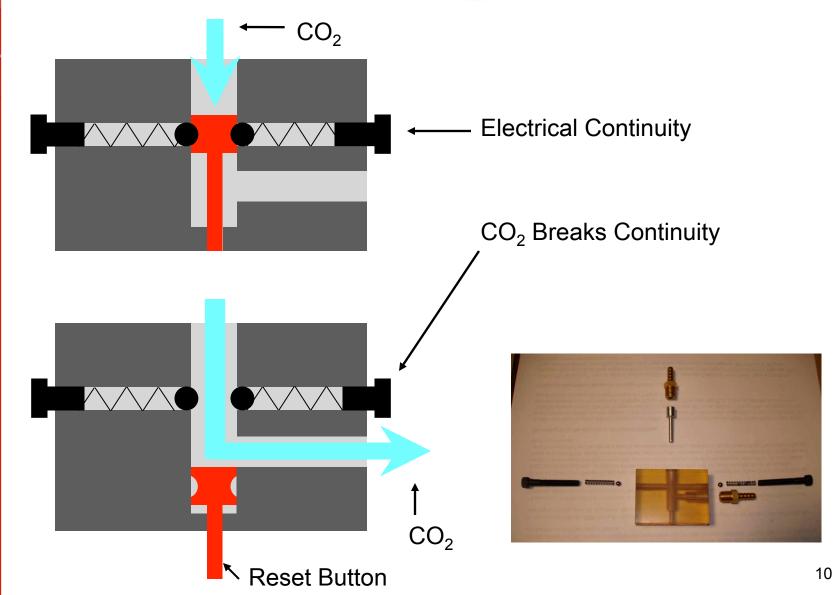

Digital control system with photodiode sensing

Component- Fire Suppression

Component- CO₂ Flow Switch

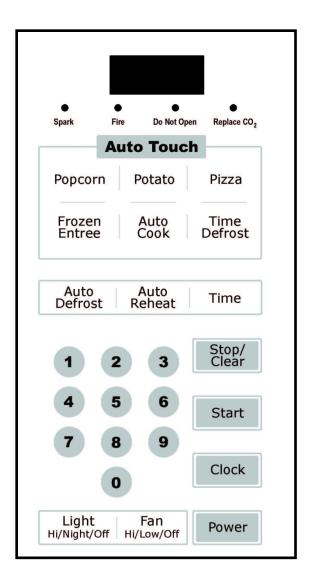

Testing- Schlieren Flow Visualization for CO₂ Nozzle

Component- User Interface

- 3 surveys with over 300 responses
- Final design
 - LED Light System
 - Auditory Alarm

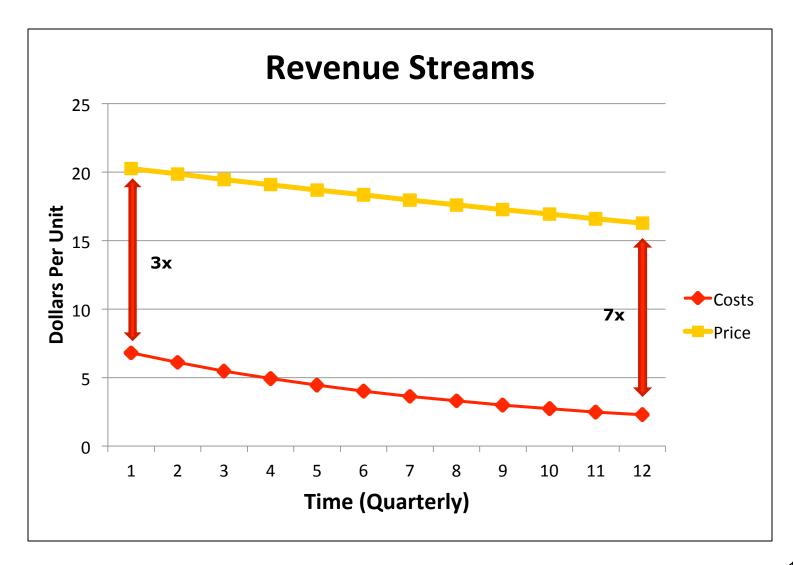

Business Model

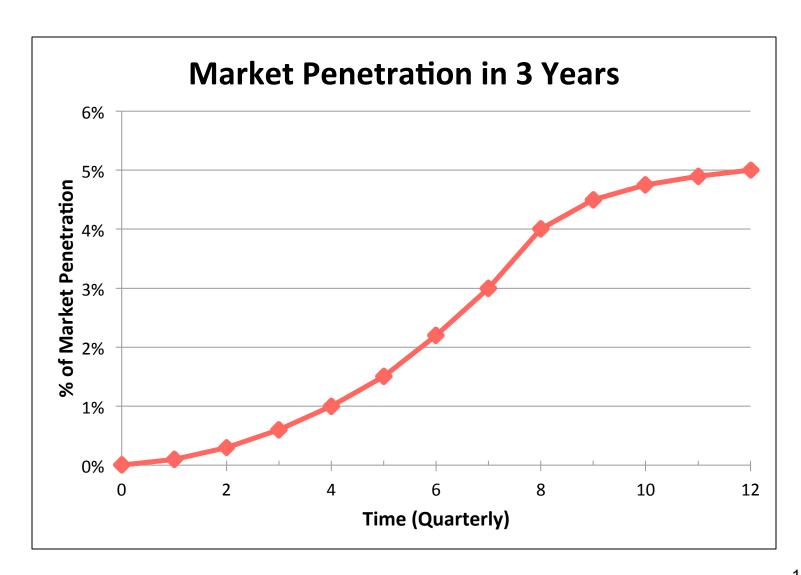

Market Fire Safe Technology to OEM through product license

Version	Survey: Price People Will Pay	Manufacturing Cost to Add Feature	Expected Profit
Standard	\$17	\$2.30	\$14.70
Deluxe	\$30	\$16.20	\$13.80

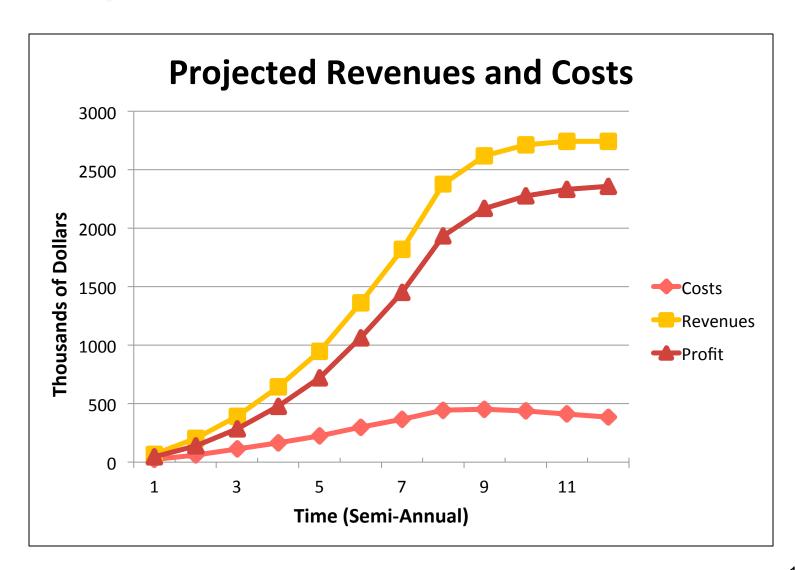

Price and Cost

Market Penetration

Expected Revenue
