

2.009 Blue Team Code of Ethics

- I. Team Blue shall make the safety of the customer and engineers their utmost priority by observing safe machine shop practices and complying with industry standards.
- II. Team Blue shall always consider the mental and physical health of the engineers at stake when making team decisions.
- III. Team Blue shall always uphold honesty and academic integrity in communication with the team, with the customers, and with the 2.009 staff.
- IV. Team Blue shall strive to not waste the limited resources of time, money, and materials by prioritizing and drawing upon each other's strengths.
- V. Team Blue shall ensure that our home assistive device adds value to the well-being of the intended customer by finding and addressing our customers' needs.
- VI. Team Blue shall be tactful and respectful while interacting with all involved parties.
- VII. Team Blue shall be objective and unbiased in listening to feedback and communicating viewpoints.
- VIII. Team Blue shall recognize that it is each member's responsibility to speak up, address, and follow through with any project-related issues that arise.
