2.009 Sketch Model
Presentation
Team Yellow B
EmergiTent
Concept

- Emergency shelter for displaced people and refugees
- Easily deployable, collapsible tent
- Focus on speed of setup, ease of use, and portability
Technical Specifications

- spring-loaded deployment
- struts for support
- dimensions 8 ft x 3 ft x 3 ft
- collapsible for portability
- inexpensive
Benchmarking

- instant tents expensive, not intuitive
- take longer to deploy
- simplicity
- up and down quickly, weather resistant, reusable
Problems/Risks

- Tension issues
- water
- staying up
- deployability and setup
Market and Customers

- Suddenly displaced people and refugees
  - Philippines: 450k
  - Katrina: 1mil. +
- Smaller situations
- Deployment speed crucial
- UNHRC
EmergiTent

Your one-piece way to simplify shelter
