Special Thanks: Wesley Sweeney and Sir Speedy

An **electronic** transmitter recognizes
your **individual ID** and opens your
lock at the push of a **button**.

Keyless

Shave time off your commute with **Cobolt.**

A **keyless** bike lock, combining **speed** and **security.**

Eliminating the need to look for keys and giving you peace of mind.

Hinged

Free moving hinge provides **ease of use** when locking and unlocking your bike.

Bike Attachment

Cobolt can be attached to your bike effortlessly.

Additional Features

Rest assured you won't be left stranded if your battery dies.

Manual Unlocking

Ergonomic Grip

Comfortably unlock your bike using Cobolt's user friendly grip.

Replaceable Batteries

A tamper free casing prevents intruders from removing batteries when the lock is closed
